

RUN Write-up

Jan 18th, 2020 Holcomb Valley 3N16 Snow/Mud Run

Run Date:	January 18 th 2020	
Trail Leader:	Rob, Craig, My, Mike, John, Robert and Bill additional DD members did help on the trail and to help lead as where needed.	
Total No. Rigs	12	We had 12 Rigs, Jeeps, Toyota's, Trucks, and Broncos. A very nice mix of rigs of all types of builds.
Members: 9	We had 9 Members attend the run this time.	
Guest: 3	We had 3 guess members	
	<p>We had some obstacles and a lot of ice on the trail this year. After we had our drivers meeting, we left the trailhead at 8:30AM We head out 3N16 and immediately where met with a fallen Tree, it was not a small tree, we used two wenches on the tree and several restarts to move the tree off the road. It was a great experience for all on how to use our recovery tools and how to work as a team to move the tree. Thanks to the hard work of the run leaders we were able to make quick work of the tree and reopen the road. We did not have a fresh snow fall that week, so the trail was a little muddy, and all snow was limited to the shaded areas of the mountain top. We helped a follow Jeeper out of a slippery situation and once again used the wench to pull them out. The trail condition was good, some mud and some snow and Ice.</p>
