

The Dirt Devils Digest

February 2015

A monthly publication of the Dirt Devils

<http://www.dirtdevils.org/>

Presidents Message:

Wow February has 2 good runs Motoni wash and Black canyon. Motino is moderate to difficult and Black canyon easy with interesting POI's. Both sound like a lot of fun. Followed in March with the popular Calico run.

Even if you can't come out on one of our runs try to support a Cal 4 Wheel or CORVA event.

Everyone should continue to explore the new web site especially the forum section. Continue to send your comments and questions to Chris.

Congrats to the new HAM operators in the club. I'm sure they are eager and ready to tutor other members who want to take the test.

Keep our trails open

Ray Kleinhuizen

One cool jeep I don't know if it really served in WWII.

Top 10 reasons to be a Dirt Devils trail leader:

- 10 – You pick the trail (hopefully someone will want to run it with you)
- 9 – You pick the run start time and meet spot
- 8 - You write the run announcement
- 7 - You pick the CB channel (duh 4)
- 6 - You conduct the drivers meeting (best if done before you start the trail)
- 5 – You carry the Dirt Devils club first aid kit (hopefully you know how to use it)
- 4 – You pick the bathroom stops (more stops keep you out trouble)
- 3 – You are the spotter when someone needs help (you'll get a lot of exercise)
- 2 – You will get unwavering support from all drivers even when you are hopelessly lost and confused.
- 1 – You get to ride in front of everyone out of the dust (this the only good reason to be a trail lead)

Web site

289 unique visits in December.

Run reports

Adopt a trail

Current hours – 28+ 5 hours for Jesse going to the meeting = 33 hours

Jesse May attended the last meeting at the Corona Sizzler. The main issue was that when we do any major work on the Adopt-a-Trail, make sure Greg knows beforehand. There are some clubs that have not notified him. We are not supposed go onto someone else's Adopt-a-Trail and count that as hours, which some clubs have done that. None of the hours have been forwarded onto Angela, which needs to be done. Will go back through the minutes and get the information and send it to her. There is a number to be called for fire danger, especially when doing major work. Not a big deal for us as we always go through Greg for that. Greg will be having another chain saw class.

Meeting Location: Outpost Café @ 8:15 AM

Starting Location: Boones RD @ 10 AM

Weather: Partly cloudy, Afternoon rain

Trail comments: Arrived at the trail head at 11:00 AM. Started with 9 vehicles and went through a tough gate keeper section spotting and stacking through the first 200 yards or so. It was evident that some vehicles, especially ones with a long wheel base, were going to have a tough go of the trail. James needed a strap to get thru the first obstacle and sustained his first body damage to the passenger door. Kirk got hung up in a squeeze and the rock stacking crew went to work. Tim split his pinky while stacking rocks for Kirk and as a result needed to head back to get a stitch or two. Danny and Kirk also turned back after the gate keeper section. The remaining 6 vehicles continued on. We stopped for lunch around 1PM. A truggy that was training for KOH was headed down the trail as we were half way through the waterfall

section. We noticed they had a flat tire. James provided them with a tire plug and Josh gave them some air. They cruised past us making it look easy. We had a few more tough sections as we progressed up the hill. James went thru a tight squeeze that provided him with his second damage of the day in the driver rocker panel. Frank and Josh spotted and stacked rocks for most of the group as we climbed to the top of the hill. Unfortunately on the last obstacle stacking rocks for James, Josh had a rock shift and hit him in the ankle which immediately bruised and starting swelling. It was literally 50 Ft from the finish. At 4PM we finished the trail everybody relished in their accomplishment. We regrouped to head back to the staging area. On our way back we met up with Don Young in the meads dry lake area who was working with their race team to get tuned up for KOH. We decided to head over and look at another trail in the area called turkey claw. It was getting dark and we started to head back to the HWY. As we proceeded Josh hit a big bump and snapped a weld on his track bar. James and Chris headed out on their own leaving Roy, Josh, Doug, and Frank to get the track bar fixed. Doug and Roy stayed with the jeeps as Frank, Josh and Rowland went out in search of a welder. After 20 or so minutes of searching we found one and patched the track bar back together. We reinstalled the track bar and thought we were done.

Little did we know that we would meet a man walking a goat in the desert. pausing for you to re-read that last section that had made a wrong turn and got his ford truck stuck in some loose dirt. Josh loaded up the goat and his owner and took him back to their truck. Gave them a little tug and helped them out of the sand. Now finally we aired up, and hit the road around 8 PM. Just another day out on the trail.

Cowbells: James Ettinger

Damage: James- Passenger door rock rash, Driver rocker panel rock rash, Josh broken track bar

Injuries: Tim- Cut pinky finger, Josh- Bruised ankle

Recommended equipment: 2-lockers, 35" tires, Full skid plates including rocker guards

Cal-4-Wheel South District meeting

Jesse, Keith, Joel Card attended

Jesse and Terry were re-elected to their positions.

February 21st is the convention. Have phones ready in case you win the Jeep. The convention is asking for hospitality support and raffle support. New Jeep will be at the convention. Terry Dean would like to have a club bio so he can write it up and put it into the In Gear. Keith is the longest-running oldest member, then Jesse then Bill. Ray appointed those three as a committee to put this information together. If they get the information to Ray, he will write it up. There is a lot of stuff being fought to keep lands open. Glamis is being taken back to court. The fights take a long time - don't be discouraged at the length of time. The money raised at the events go to help for these issues. Pay for two "resource consultants" to watch the events and read the documents. There is a big US coalition that is being worked on to fight and lobby in DC. The coalition will be paid for by industry not by clubs. Each region will have voting rights. Still being worked on. At the SEMA show last year, the idea was presented and is being worked on. There are some states that do not have any associations. A bylaw change to be voted - remove the word club from California Association of Four Wheel Drive Clubs, Inc as half the membership is not in clubs. If the bylaw change goes through, new materials would be phased in as old material is sold out. Keith presents a motion to vote for the change, 2nd by Rick. 1 nay, 0 abstentions, rest ayes. Motion passed. Delegate for the club for the convention meeting is Keith. Ontario Jeep is offering discounts for Cal-4-Wheel members with association membership club. Will service any Jeep regardless of age. In the In Gear and on the web site, the application for HDR is available. Club is leading a run, Danny is the run leader, and need members to sign up for the event. Talking about running Devils Loop the next day as a second run. Danny agrees to be run leader for that one as well. Cal4Wheel has submitted comments for DRECP. Has to do with energy in the desert. For every acre put aside for energy, two other acres are locked up for energy. At stateline, the solar plant was 100,000 acres and we lost another 200,000 acres because of the offset.

Run calendar

Adopt a Trail meeting place

8:30am at Rock Road House
32150 Hilltop Blvd Running Springs, CA 92382

Run announcement template

Research and/or Pre-run the trail route.
Create and Post a Run Announcement
When emailing the run announcement: Please, use the words "Run Announcement" in the Subject line of the message, forward to the webmaster and newsletter editor.
Date/Time and Place for the Run
Description of Run
Difficulty Rating
Run Type: Base Camp, Day Run
Directions to Meeting Place.
EXACT Departure Time from Meeting Place
Required Equipment. Open dif ? Lockers?
Is RSVP Required?
CB Channel channel 4, if to much traffic then switch to 5 and so on.
HAMM channel 146.440
Camping Location/ Directions/ Details/ Facilities/ Fees.
Access for motor homes?
Contact Information (Run Leader
Phone Number & email address)

Day of the Run:

Hold brief driver's gathering before start of run. Include special instructions.

Assign vehicle order if there are vehicles with open diffs. Have vehicle with locked diff in front & behind. (If possible disperse vehicles with HAM radios near the front, middle and rear of the line.

Encourage drivers to learn the name of the person in front and behind his/her vehicle.

Assign Tail Gunner Vehicle

After returning home forward to the newsletter editor a Run Report and a few photos. subject line write "Run Report"

DD Trail Ratings

Trail ratings are subjective and weather conditions over the years can change a trail. An easy trail can become more difficult after or during rain. The trail leader needs to be the final judge of trail conditions the day of the run. If any part of a trail is difficult the trail is rated difficult. If difficult sections have bypasses the trail may be suitable for less capable rigs or less experienced drivers.

E - Easy (Black Canyon, Mohave Trail)

M - Moderate (Devils Loop, Miller Jeep Trail)

D - Difficult (John Bull, Calico)

(E) Easy trails could include these conditions:

- Any dirt, sand or gravel road.
- Gentle to mildly steeper hill climbs, mild rocky sections and/or soft sandy sections.
- Four wheel drive may not be necessary all the time.
- Pot holes or ruts that require high ground clearance.
- Water crossings are up to 15 inches deep.
- Suitable for full size vehicles.
- Low gears may be required on hill climbs.
- Recommend 4 wheel drive vehicle
- Suitable for most tire sizes

(M) Moderate trails could include these conditions:

- Steep rutted and rocky hill climbs that require careful tire placement.
- Two to three foot ledges to climb and/or steep down hill drop offs.
- Rocky sections that can cause body or rim damage.
- Water crossings might have rocks and could be deeper than 12 inches.
- Brush or cactus may touch vehicle.
- These trails will require low range gears, high ground clearance and 4WD.
- Skid plates and body protection are recommended.
- Minimum 33 inch or bigger tires.
- Recommend at least one axle locker.

(D) Difficult trails could include these conditions:

- Rocks as big as your tire to as big as your vehicle.
- Hill climbs are steep and may require extended wheel travel.
- These trails can have long sections of large rocks that require careful tire placement. .
- Three + foot ledges to climb and steep drop offs.
- Body damage is possible and brush may scratch vehicle.
- These trails will require vehicle modifications such as suspension lifts, body protection and skid plates.
- Minimum 35 inch or bigger tires.
- Recommend front and rear axle lockers.

Adopt a Trail

The Dirt Devils Adopt A Trail is: Dishpan Springs Trail (3N34)

Dishpan Springs Trail can be found in the San Bernardino National Forest near Lake Arrowhead. The Dishpan Springs Trail is one of the toughest and most popular trails in the SBNF.

The West entrance:

2N26Y is N34° 16.198 W117° 08.258.

The T6 Bridge:

N34° 16.106 W117° 07.745.

The East entrance:

3N16 is N34° 15.663 W117° 05.116.

Meeting place

8:30am at Rock Road House

32150 Hilltop Blvd Running Springs, CA 92382 next to the 76 gas station

Cowbells

The cow bell rules are: If you get stuck and are unable to move under your own power and need the help of a winch or you get strapped from one of your fellow jeepers then you have earned the privilege of hanging a cow bell from your front bumper. You must leave the cow bell on the front of your rig until another Dirt Devil gets stuck then, you can proudly hand it over. This starts at the beginning and the end of the trail, not on the highway.
