

Corral Canyon - April 24, 2021 (Lead by Danny)

Seven vehicles met at Four Corners at Corral Canyon, San Diego at 9:00 am to air up.

Drivers and Guests: Bill; David with guest, Neil; Suhag with his 3 daughters; Vinnie; Ron; Tim with guest, Nick; and myself. 4 Toyotas and 3 Jeeps.

We started out at 9:30am with 7 vehicles at the difficult Sidewinder Trail. There were no problems until Suhag and Vinnie challenged the last obstacle with Suhag successfully climbing it. Vinnie was not so lucky. The 5 other drivers chose the bypass. The trail ended at the campground where we had lunch.

After lunch the next challenge was Bronco Peak. Everybody made it to the top. On the way down, we got to an obstacle where big rocks were protruding out onto the trail. Five of the vehicles made it pass the rocks. Bill backed up after he realized he could not make it without breaking his windows. Ron, behind Bill, decided to not go through the path. Both called it a day and returned to the campground.

The 5 other vehicles continued down the backside of Bronco Peak at a steady pace until meeting up with another group coming up. This slowed us down for about an hour. Once they passed we finished the trail.

At the end of the trail we took a break and all laughed about a Jeep leading 4 Toyotas. There were no breakdowns, no issues, and all excellent drivers! Great, fun day!
